## EXPERIENCE THE DREAM, OWN THE DREAM

### A UNIQUE DRIVING EXPERIENCE

Inspired by the fictional Batmobile, the Rumbler 505 Sport Tank, is designed to power the dreams of enthusiasts, collectors and investors world-wide.

This luxury high performance limited edition British supercar is the ultimate dream car, the dream of being the playboy/playgirl billionaire superhero. To fulfill this dream the Sport Tank fuses a sleek body shell and high performance power train of a supercar, with the protection and robustness of an armoured vehicle.

People will stop and stare at this unique form as it glides through the night. And as a crossover it will be as comfortable off-road as it is on-road.

### HIGH POWER & HIGH PERFORMANCE

The Rumbler 505 Sport Tank embodies a transitional evolution in technology that blends rock-solid robust battlefield-ready proven engineering, new innovation in core engineering design and performance, with a hybrid power core that delivers instant response through a balanced integration of hydrogen fuel cells.

Select the power source for the superhero's mission, cloaked in silence through the night or racing for hundreds of miles cross-country, and gain the benefits of modern and proven technologies for the best survivability in all normal conditions.

### BODY SHELL: CLOAKED IN ARMOUR

A superhero needs cloaking in stealth and armour, and the Sport Tank embraces the latest advances in lightweight armoured shielding, multi-layered body shelling and laminated windows to shield our Elite VIP hero owners against the threats they face in today's world.

Resistant to light firearms and deflecting the worst of heavier assault the Sport Tank provides a core cabin, two-seat and four-seat versions, that is separated from the forward wheels to absorb and deflect the effects of landmines and improvised explosive devices.

### INTERIOR DESIGN: COMFORT & SECURITY

The interior design combines advanced technology for wide-angle situational awareness of the exterior environment, stealth features and counter-surveillance barriers to protect the superhero's presence inside.

The comforts of a luxury grand tourer are there for the longest journeys and to reduce all distractions from the superhero's role of saving the world.

Throughout, the Sport Tank gives the owner a unique, dramatic experience of modern performance, power and protection in an increasingly threatening world where you need to rescue the innocent from all the Jokers.

## The Supercar To Save The World

### APOCALYPSE POSTPONED

The merchants of doom tell everyone they can shout at that the world is doomed, it's going to end tomorrow, or maybe tonight if the weather's bad. These Jokers are the real criminals, promoting endless despair and terror tactics on the world.

Meanwhile, in a dark corner of a lair underneath a hidden fortress our heroes, true heroes of science, technology, engineering and design, are crafting a new perfection to save the world.

The wolf's answering call in the night.

### ONE SMALL STEP

There is no magical answer to all the Jokers out there and their gangs of clowns. The Sport Tank is the hard work of diligent, careful calculation. A detective story as each clue to the world's problems is teased out from the climate apocalypse hysteria.

Scientific discovery tracing back decades, old lost innovations found in museums, dusted off and given new life with state-of-the-art materials and design techniques.

Each small step leading to new breakthroughs.

### THE MAGIC KISS

KISS (Keep It Simple, Stupid) is the rule. Forget giant leaps into the dark, think of the careful improvement to existing technology, easier to develop and deploy with proven improvements in efficiencies and no need to risk vast sums of money, thousands of millions, on fairy tale unicorn fantasy promises of a New Age.

Take the current technology and make it better, ten, fifteen, twenty percent or more in fuel efficiency and comparable reductions in air pollution while improving power output.

The wolf roars.

### THE HYBRID

Add a mixture of new fuel components and hybrid technologies, and improve the efficiency further. Fuel cells and adaptive braking to capture and store more energy. And then add the final twist.

Change the fuel chemistry for the new engine, remove the particulates and create greater efficiencies with far more power density than any electric battery.

100% carbon neutral, 100% clean power.

The wolf bites the Jokers.

### TECHNICAL SPECIFICATIONS

Price:  
(If you have to ask you can't afford it.)

Deposit:  
£288,000.00 to order one.

Engine:  
Hybrid >1,000 bhp.  
Hydrogen Fuel Cells.

Performance:  
max speed (est.) 180mph.  
range: 800+ miles (economy safari driving).  
range: upto 50 miles (est.) on fuel cells.

Fuel:  
Hydrocarbon composite / Biofuels  
Local electric into fuel cells.

Weight: 3.4 tons (est.)

Body:  
Graphene-reinforced carbon fibre shell.  
Titanium Shock Armour (Confidential).  
Blast deflective composite structure.  
(other elements - Confidential).

Seating: 2-seat & 4-seat variants.

Electronic fit:  
Broad spectrum sensors, communications,  
local & planetary. Personal Security & Privacy  
Features.

Weapons: Confidential (don't tell the Jokers).

Diet: Eats EVs for breakfast.

## RUMBLER 505 SPORT TANK SUV (SUPERHERO UTILITY VEHICLE)

### THE CAR

A huge and dramatic presence on the road the Rumbler 505 Sport Tank is like nothing on Earth. With a body nearly eighteen foot long and nine foot wide this has a footprint broad and long enough safely to handle high road performances with ample off-road capabilities. Whether you are taking a long distance safari in the bush or racing across a battlefield the Sport Tank is your personal mobile armour.

### THE PERFORMANCE

The engine will be rated in excess of 1,000 bhp to deliver torque and speed enough to match most so-called supercars, and those that try to get away will soon find themselves trampled under

your paws when you take the off-road shortcuts they can never handle.

### THE RANGE

Great for long range safaris the Sport Tank offers substantial fuel range combined with the high efficiency of its engine and hybrid energy capture to extend its range closer to a thousand miles.

The hybrid features of hydrogen fuel cells deliver instant power boosts for acceleration and the ability to perform in stealth when "prowling" through the city streets or when you need to slip away from all the Jokers and their gangs.

### THE TECHNOLOGY

The heart of the Rumbler 505 Sport Tank is a robust design of solid engineering. Strip off all the electronics, deactivate everything and the core engine and power transmission will work when most, if not all, modern cars stumble and stall and leave you helpless by the roadside.

The Sport Tank is there for you and ready to carry you away from trouble or into the toughest and most challenging environments while keeping you safe.

Add layers of enhancements for performance, communications, all weather, day and night travel, stealth or loud for every situation.

### THE BATTLEFIELD

Elite superheroes need armoured shields and the ability to travel and work in comfort and security.

Bulletproofing is standard and the body form, with its swept nose and cabin, and its forward lunging wheels place our superhero owner at the heart of a deflective shield against many forms of frontal attack.

If you need more capacity and capability the Sport Tank comes in both two-seat and four-seat versions. Take your protection team with you, or just a lot more kit for your safari.

As for all the gadgets: It goes without saying.

## 1,000 ELITE VIP SUPERHEROES

### THE MARKET FOR A LIMITED EDITION

The Rumbler 505 Sport Tank is available only as a limited edition of one thousand.

We are building only 500\* of each type: 500\* x 2-seat and 500\* x 4-seat.

If we distribute these around the world there will be only a handful in each part of the world: the Americas, Europe, Africa and the Middle East, and the Far East.

### 100 EACH

With this limited distribution we see only a hundred Sport Tanks of each type in each key region of the world.

### 30 MILLION SUPERHEROES

It was estimated by one British supercar manufacturer that there will be up to thirty million wealthy customers for such a supercar by 2030. Only one thousand may become our Elite VIPs and aspire to become our Superheroes and Superheroines in this rare and special community of owners.

This means up to thirty thousand prospective customers for each Sport Tank.

Place your orders now before it's too late.

Maximum only 4 orders per customer (2 of each type).

### OUR SUPERHEROES/HEROINES

Our Elite VIP customers are our superheroes/heroines. They aspire to the ambition of becoming our Knights of the road.

Owners who want the ultimate driving experience.  
Investors holding a Sport Tank safe.  
Enthusiastic Collectors of automotive beauty.

There are many reasons why someone needs to become one of our Elite, but there are limited opportunities to do so.

Our Elite are making a commitment to the future, to new and cleaner technology, to innovations in science, engineering and design.

They are committing to experiencing the power and drama of this very special supercar and to improving the world with their membership of our Elite Owners' Club.

(\* Okay, we'll build a few extra ones for R&D, tests, other fun and games and for the founder to keep in his own collection.)

## DESIGNER & FOUNDER, THE NAME'S BOND

### MICHAEL BOND

Founder of Rumbler Cars and designer of the Rumbler 505 Sport Tank.

Michael was inspired to launch this dramatic project to fulfil everyone's dream of being a Dark Knight in the night, rescuing the innocent, fighting for justice, or just prowling the streets and making everyone feel more secure because there's a Hero/Heroine in town.

Michael has a diverse background and a long list of Special Skills, but not anywhere like a superhero, including: a decade's experience in international finance, education in software engineering, technology and more besides.

It took Michael several years to refine the model for the Sport Tank and define the business model for the benefit of all participants: investors and customers. During this time he taught himself 3D modelling and graphics design to complete the first draft concepts for the Sport Tank.

Within the Sport Tank Michael has created a new form of hybrid power train to answer the challenges of climate change and air pollution in our cities, to reduce air pollution emissions and fuel consumption, leading eventually to a new carbon-neutral technology. The Sport Tank, you as an investment Team member and the Elite VIP owners who come to join us are the first step in a long term strategy of climate action through real, practical science and engineering.

## JOIN THE TEAM, SHARE THE DREAM

### A UNIQUE INVESTMENT OPPORTUNITY

Come and Join the Team, Share the Dream of creating this world-changing supercar. Come and share our adventure in building this unique design and participate in creating new technologies and innovations that will take on the challenge of climate change through advanced, high performance engineering and design.

The core intellectual property has been protected, the designs registered and brand trademarked to protect your investment.

The founder and designer has already identified a range of key players in the British supercar industry to deliver the advanced engineering needed to take the next steps into production.

Enthusiastic investors are now invited to join and share in the experience and excitement of creating this dramatic and outstanding luxury British supercar.

The development plan has been divided into two phases:

### PHASE ONE

In the first phase of our development plan we focus on creating the world-wide promotional campaign and early working concept models to show the world.

As this is launched and promoted world-wide we will show the world the first working design model of the Rumbler 505 Sport Tank.

This will encourage early buyers, collectors and enthusiasts to join us and become our first Elite superheroes.

### PHASE TWO

In the second phase we complete the design models and the advanced technology designs for all the engineering, the new power train and advanced materials for the body shell.

The development programme is completed and we launch the design on the world to fulfill our limited edition order book of one thousand Sport Tanks.

This is estimated, depending on success of these phases, to take approximately seven years.

PRIVATE INVESTMENT OFFER

**0%  
BANK** / **1,000%  
RUMBLER**

**BUY YOUR BONDS  
TODAY**  
**Minimum £1,000**

## YOUR INVESTMENT: RUMBLER BOND ISSUE

Your money earns little or nothing in the bank. You are invited to join us as subscriber to this unique project for the design, build and delivery of the Limited Edition 505 Sport Tank and earn much more from your money.

This is known as peer-to-peer lending, in which you cut out the middle men, the banks, and place your investment directly with Rumbler. Rumbler Bonds are a lending commitment for your funds in the following fashion:-

**BONDS:** Each Bond is bought by you for £1,000. You may purchase as many or as few issued Bonds as you wish and you may top up your Bonds whenever you wish until all Bonds are sold.

**LIMITED CIRCULATION:** At this stage Bonds are planned for circulation only to competent investors, business networks of the founder and to private supporters, fans and followers joining to invest through Team Rumbler. Not available to the general public.

**INCOME:** At present the Bonds are offered with a rate of 1,100% return on investment. Thus, when Rumbler redeem the Bonds you will receive 1,000% of your original purchase plus your original deposit, total: £11,000 per Bond.

**TERM:** The term of the Bonds is set between one (1) and ten (10) years for redemption.

**SETTLEMENT:** Bonds will be redeemed (bought back) in the year following the year we settle all

transactions on the Rumbler 505 Sport Tank Limited Edition (it will take a few weeks to settle the Bonds with all holders and ensure a safe settlement for you).

**PURCHASE:** Purchase your Rumbler Bonds either through card or wire transfer of funds to a UK holding account. If paying by card there may be a "time out" delay in processing of up to 35 days to allow for any charge-backs before receiving your Bonds. Cash payment for Bonds may be acceptable if you seek discretion for your investment, with a handling fee of 10%, thus pay £1,100 per Bond for cash purchase in pounds sterling only. Your cash purchase will only be approved upon clearance into the UK holding bank account and full clearance of due diligence of each buyer under UK government anti-money

laundering regulations. Redemption settlement of cash-bought Bonds must be through bank transfer. No crypto-currencies allowed whatsoever.

**MEMBERSHIP BONUSES:** Purchase of Rumbler Bonds qualifies for a range of bonus items published separately and subject to change without notice. At time of this publication these include: (1) Participation in members' only and Team Rumbler events, shows and special activities; (2) opportunities to order merchandising or new products developed by Rumbler Cars before offering to the general public (unless specially excluded). Details of each offering will be made available at the time of such offerings.

# RUMBLER

JOIN THE TEAM, SHARE THE DREAM

PRIVATE INVESTMENT OFFER

**100%  
RISK / 1,000%  
REWARD**

## SUBSCRIBER RISK

All investments entail a risk of loss of funds and should only be entered into with funds you can afford to lose. To this extent the purchase of Rumbler Bonds must be treated as being 100% at risk.

## NO GUARANTEE

There is no guarantee that your investment will be a success and no guarantee of repayment can be offered.

## PRIVATE INVESTMENT

When you enter into a subscription through the purchase of Rumbler Bonds you are entering into

a private investment with Rumbler Cars and no protection can be offered, at this stage, by any government security guarantees. This offer is not subject to government regulation of investments.

## NON-TRANSFERABLE

Purchase of Rumbler Bonds is not for a tradable security which may be bought, sold or otherwise exchanged in any authorised marketplace anywhere in the world. These Bonds are non-transferable and all settlement payment will be made back only to you as the buyer.

## NON-CONVERTIBLE

Bonds may never be converted to any other form of instrument, either by the company or buyer.

## INCOME RATE - 1,000% REWARD

In acknowledgement of the risk in this investment the offer of 1,000% income is made to compensate the subscriber for the perceived risk.

The offer of 1,000% is not intended for any means of deception. The successful sale of the entire Limited Edition of one thousand Rumbler 505 Sport Tanks will raise sufficient funds to complete the settlement safely for all concerned. This is not intended to be "too good to be true" but an accurate reflection on the exceptional value of the Sport Tank and a fair reward for your good support.

## SEEK INDEPENDENT ADVICE

For clarification we do not offer any financial advice and are not authorised by the UK Financial Conduct Authority to provide any investment or other financial advice regarding this investment.

If you are in any doubt then you are advised to seek independent professional advice on this matter. If you seek advice and are advised against this investment then feel you have been cheated when the project is a success we accept absolutely no liability for any losses or harm that may have come to you or any parties associated to you from the advice you may have received or any actions you took not to become involved here.

# RUMBLER

PRIVATE INVESTMENT OFFER

## RUMBLER CARS LIMITED

### THE COMPANY

Your investment will be placed in Rumbler Cars Limited, a registered company in England & Wales, based in Stockport, Cheshire, England.

The company was formerly registered in 2014 for the purpose of protecting the name and any other relevant intellectual property. During this period all funds spent on the product and invested in the business model and design for the Rumbler Sport Tank were those invested privately by the Founder Michael Bond.

As a consequence there were no financial transactions registered through the company accounts and the company has been kept safely in a dormant state awaiting this next stage in the

business development.

### THE TEAM

Apart from the founder there is no formal or official Team for the company's operation. There are three reasons for this:-

1) A professional team of designers and engineers has been identified as prospective members of the final development and delivery team but they are not currently contracted to the company for this project - there is no capital to fund their work and put bread on their tables.

2) Rather than engage a team too early it has been the policy of the founder to identify suitable funding to guarantee the best possible team are

identified, recruited and brought into the project with all the facilities they need to launch into their work immediately. The founder prefers to focus on creating the best team and not recruiting one merely to satisfy investors' desires that there is a team now, which might vanish later.

3) The business model entails several core divisions each needing a separate team, including: Web Community & Video Entertainment Channel - Team Rumbler; Engineering Research, Design & Development; Vehicle Production & Delivery; Financial Services Delivery; Post-Sales Customer Services Delivery and Warranty Support (Owners' Club Management).

Members identified for the early team include:-

A former designer for a luxury car manufacturer in the UK to aid in all design work and lead the final design.

A production engineer to assist with the manufacturing elements.

A leading motoring journalist to assist with all public promotions.

Manufacturing facilities to undertake all production of the completed design for the Rumbler Sport Tank.

Banking and international financial facilities to assist with the most efficient means of transacting all sales from our Elite customers world-wide in a safe fashion.

# RUMBLER

PRIVATE INVESTMENT OFFER

## RUMBLER BONDS LEGALITIES

### RUMBLER BOND

Each Rumbler Bond is a direct relationship between you and Rumbler Cars Ltd (the Company) to place a minimum of £1,000 or multiples of £1,000 on loan to the company for the term of the subscription.

### NON-TRANSFERABLE/NON-CONVERTIBLE

Your Rumbler Bonds are a non-transferable and non-convertible financial placement with the Company and cannot be directly placed on or disposed of in any authorised securities market.

The Company is not liable if you place Bonds through other arrangements for indirect transfer.

### REDEMPTION

Bonds are redeemed when the programme of work has been completed successfully: the sale and delivery of a Limited Edition of one thousand Rumbler 505 Sport Tanks. Bonds will only be redeemed when the Company is able to fulfil its obligations to the subscriber from these sales.

### BOND INCOME

In exchange for your subscription you are lending your funds to the Company for its programme of work and the Company make a commitment that, on the success of this programme, you will receive a return on your Bonds.

### SECURITY OF INVESTMENT

Rumbler Bonds do not receive any security of deposit you might receive when placing your funds in a bank. All funds must be treated as AT RISK throughout the duration of the subscription.

### USE OF FUNDS

Your subscription will be used for the production and delivery of the Sport Tank to Elite VIP customers around the world. Funds will be used in general for: 30% design of completed show models and prototypes; 30% world-wide marketing & promotions; 30% business facilities, administration; 10% international sales and financial facilities.

### LIMITED LIABILITY

The Company is not liable for losses, damages, injuries as a result of conditions of uncontrollable business disruption, extreme events, plagues, acts of Gods, Nature, Jokers, etc., etc.

### AGREEMENT

These notes form the core basis of an agreement between you and the Company to take reasonable safe care of your funds for the stated purpose and return your reward in a prompt and professional fashion. For any dispute which cannot be settled amicably, refer to the authority of the English High Court.
